**Beara Ocean Gin**

70cl/43,3% € 47,45

The Beara Distillery is located on the southern tip of Ireland, close to Mizen Head, Ireland's most southerly point. The Beara Peninsula's wild Atlantic shore is home to an abundance of unusual botanicals, which is how the idea of Beara Ocean Gin was born. The Atlantic Ocean botanicals used in the gin include salt water and sugar kelp, which balance nicely with the freshness of juniper and zesty citrus aromas, while cardamom, angelica and orris root add to the complexity. Hand picked Beara Fuchsia adds a delightful floral fragrance. The result is a unique blend of native sea flora with traditional gin botanicals for an altogether enjoyable spirit.
